The objectives of this one day clinical program are to provide clinicians with the opportunity to learn a method to rationally and accurately prepare teeth for fixed conventional and bonded extra-coronal restorations; construct accurate provisional restorations; manage and prepare the soft tissues during the preparation and at the impression stage; as determine the most appropriate impression material and technique compared to newer digital techniques, to provide for an accurate reproduction of the prepared tooth. In addition, the determination of a colour prescription, and a technique to understand and assess coronal contours of a restoration will be described. Lastly, the steps involved in the fitting and cementation of the completed restoration will be presented. This program will provide practical clinically-based information, including video presentations of direct clinical procedures, which participants can implement with immediate effect into their daily practices.

The ability to critically evaluate a tooth for any indirect preparation and then precisely prepare the appropriate surfaces has diminished since dental implants have reduced the number of crowns and FPDs constructed. The required skill and decision-making remains. The factors that contribute to a precise tooth preparation need to be understood. Retention and resistance features are analysed. The appropriate instruments and their operation to complete the desired preparation are listed and their use for preparation for various restorative designs is presented. The logical and required steps in the various clinical procedures are presented. Emphasis is placed on the importance of the management of the soft tissues, both during tooth preparation and prior to the impression taking. Whether the replication of the prepared tooth is by conventional method or digital technology, the management of the soft tissue in combination with clearly prepared and defined tooth margins remains an essential for success. What will be the future of the silicone impression materials in the face of digital technology? A considerable therapeutic effect can be created through use of carefully constructed provisional restorations, along with the appropriate sequencing to allow soft tissue healing and when required, aesthetic assessment.

With any indirect restoration comes a need to work with dental technicians in developing the final restoration. Thus there is a need to be capable of recognising the colour of teeth and recording those parameters. A straightforward method of analysing and recording the shade is presented, matched with a three-step recording procedure that allows the shade prescription to be transmitted to the dental laboratory for their effective utilisation.

The final step is the delivery of the definitive restoration. This is most effectively achieved with a logical sequence of checks to provide for a successful outcome. Clinical techniques for the evaluation of the proximal contacts, occlusal table and contours will give the participants a reliable method for this clinical stage. Further, the different cement types and their indications and handling will be discussed. All of these procedures involve an integrated clinical approach with the chairside assistant, which will be illustrated, and handy directives as to improving the effectiveness and efficiency of these procedures provided – some via video displays.

Come along to this lecture and discover some excellent techniques to develop even more outstanding results in your clinical procedures.
TOPICS COVERED
- Precise tooth preparation – conventional and bonded extra-coronal restorations.
- The importance of an accurate impression
- Criteria for accurate and precise impressions
- Common pitfalls of impression taking techniques, and how to avoid them
- Impression procedures in different clinical situations
- Soft tissue management – the key to the once-only precise impression
- Pre-impression soft tissue conditioning
- What are the options for impression materials and techniques?
- Auxiliary staff’s role in the precise impression
- Interocclusal recordings and verification
- What is the business impact of the precise impression technique?
- Simplest steps to shade determination and transmission to the dental laboratory
- Effective delivery of the restoration.

LEARNING OBJECTIVES
At the conclusion of this workshop participants should be familiar with:
- An understanding of the preparation teeth precisely for various restorations
- The importance of soft tissue management in the successful transfer of the prepared tooth for the fabrication of the definitive restoration
- How to determine colour and transfer this information to the dental laboratory
- The steps in accurate fitting and placement of the definitive restoration
- Effective chairside assisting procedures to simplify these procedures.

Dr Anthony Dickinson
Dr Anthony Dickinson is a practicing Prosthodontist from Melbourne where his clinical emphasis is interdisciplinary management and implant dentistry. Dr Dickinson received his Bachelor of Dental Science from The University of Melbourne in 1978 and his postgraduate studies in Prosthodontics at Indiana University (USA) in 1985. Dr Dickinson is a member of the Board of Directors of the International Team for Implantology and for six years was president of the former Dental Practice Board of Victoria.

THE SEMINAR IS PROUDLY SUPPORTED BY Heraeus
ADAVB Registration Conditions and Administration

Please register separately for
ADAVB and Melbourne Dental
School courses using the
individual registration forms.

DISCLAIMER
The information and opinions
presented at the Continuing
Professional Development (CPD)
programs described in this handbook
are those of the presenters.
Presentation at a CPD program
of clinical methods, materials,
techniques and/or approaches to
business issues that arise in the
dental practice do not constitute
endorsement by the Australian
Dental Association Victorian
Branch (ADAVB).
Use of any information from CPD
programs is the sole responsibility
of the individual practitioner.
ADAVB reserves the right
to alter program details as
circumstances require.
Activities are approved for the
stipulated hours of scientific/non
scientific CPD credit.

SCIENTIFICALLY INDEPENDENT
PRESENTATIONS
Presenters have been asked to
ensure that their presentations
are scientifically independent.
Presentation during ADAVB CPD
programs does not imply that
the ADAVB endorses the content
or agrees with the opinions of
the presenters.

REGISTRATION AND FEES
■ Registrations must be received
three working days prior to the
event. Registrations received after
this will incur an additional $25
administration fee.
■ Registration fees are stated within
the event information and also on
the booking form.

REGISTRATION CATEGORIES
■ Members: The member rate is for
current members of the ADA
and other Branches of the ADA.
Students: The student rate applies
to full-time dentistry students
enrolled at either undergraduate
or postgraduate level in 2011.
Proof of your student status (e.g.,
photocopy of student ID) needs
to be provided when registering.
Retired Members: The retired
member rate is only available to
dentists who no longer practice
and hold a current retired
membership with the ADAVB.
Staff: The staff rate applies to
dental hygienists, dental
therapists and practice
management staff employed by
an ADAVB member and who are
accompanying the member to an
event. The member’s name and
ADAVB membership number must
be provided on their registration
form. Staff are not eligible to
attend events that are limited to
ADAVB members only. Dental
hygienists and dental therapists
not employed by an ADAVB
member must register for events
at the non-member rate.
Dental Assistants: The dental
assistant’s rate applies to dental
assistants employed by an
ADAVB member and who are
accompanying the member to an
event (except for events specifically
organised for dental
assistants). The attendance of
dental assistants is limited to
large venue events and others
where stipulated. The
member’s name and ADAVB
membership number must be
provided on the registration form.
Non-Member: Non Member
dentists, including those that
are employed by current ADAVB
members, are not eligible for
staff or member rates under
any circumstances.

PAYMENT OF COURSE FEES
■ All registrations must be
accompanied by payment which
may be made via mail or fax with
credit card details clearly written
on the registration form (only
Amex, Mastercard and Visa are
accepted), or cheques made
payable to “ADAVB Inc” and
mailed to ADAVB, PO Box 9015,
South Yarra VIC 3141.
■ Phone registrations and payments
will not be accepted.
■ Once full payment of the
registration fees has been
received and your registration
processed, a confirmation letter
and receipt will be mailed to you.
■ The fees include your registration,
handouts and course materials
(if any), meals and refreshments
during the day.
■ Early registration is recommended
for programs with a limited enrolment.
■ Contact the ADAVB if your
enrolment is not received within
7 days of your initial application.

GST
■ All course fees include 10% GST.
■ All receipts show ADAVB’s
ABN 80 263 088 594.

CANCELLATIONS
■ Lectures: Cancellations received
up to 7 working days prior to the
event date will be refunded, less
a $50 per person administration
fee. No refunds will be issued for
cancellations made less than 7
working days prior to the event.
■ Hands-On Workshops: Cancellations
received up to 14 working days prior
to the event date will be refunded,
less a $50 per person administration
fee. No refunds will be issued for
cancellations made less than 14
working days prior to the event.
■ A substitute delegate may be
 nominated and ADAVB must be
informed of the substitute’s details.
■ All cancellations must be made
in writing to the ADAVB.
■ Refunds will be issued via cheque.
Please allow up to 4 weeks for
refunds to be processed.

CREDITS:
■ Credits will be issued if ADAVB
are advised at least 3 working
days prior to the event date.
■ No administration fee is charged
for credits.
■ Credits are valid for 12 months
from the date of the event.

ATTENDANCE CERTIFICATES
■ Attendance at recognised
programs conducted by the ADAVB
contributes towards compliance
with the Dental Board of Australia’s
Guidelines on CPD.
■ An attendance certificate, stating
CPD hours, will be issued and
mailed to each participant within
4 weeks of the event.
■ CPD hours are awarded according
to the amount of time actually
spent in attendance at the event;
as recorded by the ADAVB.

VENUES FOR 2011
Various venues will be used
throughout the year.
Check individual events for
venue information.

PARKING FACILITIES
Parking facilities vary depending
on the venue of the program.
Whilst ADAVB tries its best to find
venues with adequate parking
facilities, available parking cannot
be guaranteed.
ADAVB encourages all participants
to arrive early to avoid any
potential parking problems.
Most venues are easily accessible
via public transport.

CATERING
■ Catering will be provided for
each course.
■ Full day courses (e.g. 9.00am –
5.00pm) will have morning and
afternoon tea and lunch provided.
■ Half-day courses (either morning,
afternoon or evening) will have light
refreshments provided, unless otherwise
stated.
■ Vegetarian, Halal and Kosher meals
are available on request and must
be specified on the application
form. While ADAVB tries to accommodate
specific dietary needs, it cannot
guarantee that the requests can be
met. Call the ADAVB if in doubt.

ADAVB’S CALENDAR OF
EVENTS FOR 2011
■ For updates on the latest ADAVB
seminars, workshops and group
activities, log onto www.adavb.net
or check the ADAVB monthly newsletter
or CPD Event Update email.

PRIVACY STATEMENT
■ ADAVB is bound by the Privacy
Amendment (Private Sector) Act
2000. The information provided
by you will be used to register you
for CPD programs. If you do not wish
for you details to be accessed by the
individual sponsors (where applicable)
please tick the appropriate box on the
registration form.
