Everything you wanted to know about panoramic radiography and cone beam imaging

BRIEF

To cover in some detail the production of x-rays, the biological effects of ionizing radiation, radiation hygiene, intra-oral radiographic techniques and interpretation, the theory of panoramic radiography, the interpretation of panoramic radiographs, the theory of cone beam imaging, the applications of cone beam imaging and the limitations of cone beam imaging.

LEARNING OUTCOMES

At the conclusion of this course, participants will be able to:

- have a better understanding of the biological effects of ionising radiation and the methods used to keep exposure to a minimum
- have a better understanding of the theory of intra-oral radiography, panoramic radiography and cone beam imaging
- have skills that they will be able to use in everyday practice for interpretation of intra-oral and panoramic radiographs
- have a method for assessing cone beam, data sets and better skills for interpreting cone beam, data sets

TOPICS AND PRESENTER

- Production of x-rays and the biological effects of ionizing radiation
- Intra-oral radiography techniques including anatomy and faults
- Theory of radiographic interpretation
- Theory of panoramic radiography and interpretation
- Theory of cone beam imaging
- Limitations of cone beam imaging
- Applications and interpretation of cone beam imaging

Professor Paul Monsour

Professor Paul Monsour graduated from the University of Queensland in 1978 with a BDSc (Hons). He completed a PhD in Oral Biology in 1987 and a Masters degree in Oral Radiology and Pathology in 1991. Professor Monsour was the first registered specialist in DentoMaxillofacial radiology (DMFR) working in full time private radiology practice on the East Coast of Australia. He was appointed the foundation Professor of DMFR at the University of Queensland in 2009. Professor Monsour developed the first and only specialist training programme in Australia for DentoMaxillofacial radiologists. Paul is an associate member of the RANZCR, a member of the Radiological Council of QLD and a Fellow of the International College of Dentists.

DATE
Saturday 29 July 2017

TIME
9:00 am—5:00 pm

VENUE
Wrest Point
Tower Mountain View room
410 Sandy Bay Road
Sandy Bay, TAS

FORMAT
Lecture

CPD HOURS
6 Scientific Hours

RSVP
Saturday 22 July 2017

FEES
Member $490
Recent Graduate $360
Dental Staff $160
Dental Hygienists/Dental & Oral Health Therapists $360
Non-member $990
Non-member Recent Graduate $420
